David J. Glover, Ed. D.
Superintendent

Dear Parents/Guardians:

Last week we posted a link to a survey for the parents/guardians of essential workers. Since the posting of that information, the State has updated the individuals who are considered essential workers. Please see the updated listing below:

- Essential health care workers may include licensed health professionals such as physicians, nurse practitioners, physician assistants, registered nurses, LPNs and nurse assistants or laboratory personnel.
- Direct support professionals may include clinicians and support staff serving the behavioral health, intellectual/developmental disabilities and child welfare communities in residential and community- based care settings.
- First responders may include paramedics, emergency medical technicians, police officers, and firefighters, correctional officers or related support personnel necessary to execute these duties.
- Food manufacturing, production, distribution and supply including supermarket workers and food preparation.
- Transportation including commercial truck driver of necessary supplies and equipment, transit workers, air and rail and carriers of critical and essential materials.
- Construction and Manufacturing including specialized equipment related to health or safety of the public.
- Nonprofit and social service agencies providing support to families and employees in related fields.

If you work in one of these areas, and have a need or potential need for daycare services, the school district will assist with securing your childcare needs. Please complete the survey by clicking the link below and complete the necessary information. We will be in contact with you in the near future to determine your need and let you know how we might help. The survey is posted below this letter.

If you have any questions, please do not hesitate to contact the school.

Sincerely,

David J. Glover, Ed. D.
Superintendent of Schools
