

20% Local Score

School-Wide Measure Computed Locally

The percent of students who met proficiency, (65 or higher on NYS Regents Exams) will be averaged. If the average is 80%, the teacher will earn 16 points. The scoring ranges will then be divided in increments so that teachers will earn 20 points if the average is 100% and 0 points if the average is 0.

All graded Regents Exams will be included in the school-wide measure. If a student takes an exam in both January and June, only the higher score will be counted.

All NYS Regents Exams (Geometry, Algebra2/Trigonometry, Living Environment, Physical Setting/Earth Science, Comprehensive English, Integrated Algebra, Physical Setting/Chemistry, US History & Government, Physical Setting/Physics and Global History & Geography)
